

# Melodies Preschool

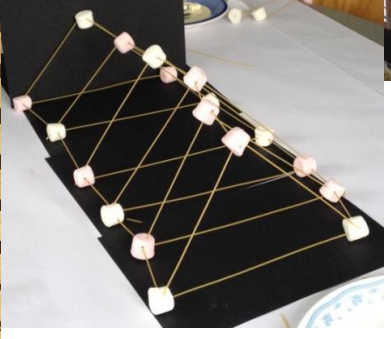

where music comes to play

*Tell me I forget,  
show me I remember,  
involve me I understand – Carl Orff*

A group of boys at Melodies loved constructing in the sandpit, and talking about all the construction they see every day in Lincoln. This led to a seven month building project where the children have teamed up with Montrose Design and Build and been involved in every stage of the building of the show home. The children replicated each stage at Preschool from designing and constructing their own building site, making a Raft foundation complete with underfloor heating, to building their own playhouse.

**Melodies Preschool** is a preschool like no other. We integrate Music, Dance, Drama and Gym into children's everyday interests to provide rich learning experiences. The dedicated passionate team will always go the extra mile to extend on children's interests as this is how children learn. Just like this building project. Enquiries Phone: 325 2227
